

Sign Alert™

Stop Sign

K&K Systems' Sign Alert™ Stop Signs are designed for intersections that need enhanced visibility. Whether in congested cities, or on rural and remote roadways, K&K Systems' Sign Alert Stop Signs are used to enhance the visibility at intersections that are considered dangerous due to obstructed view, inclement weather, and right-of-way confusion. Sign Alert Systems are visible in all weather conditions with our ultra-bright LEDs.

Sign Alert Stop Signs operate 24 hours /7 days a week at top performance with our auto dimming and multi-stage battery charger features built into our smart controller. Our Sign Alert Systems have the capability to also be activated by our optional radar detector to flash only when vehicular traffic is approaching.

FEATURES

- Simple installation
- Solar powered
- Visible day and night
- Automatic light output for maximum efficiency
- Compact battery box
- Ultra slim design
- Super bright LEDs

Sign Alert™

Stop Sign

Solar Powered

With solar technology, this system can virtually be placed anywhere off the grid. With the "off the shelf" battery and smart controller housed behind the solar panel, installation is a snap.

Reflective Sign

High intensity signage and MUTCD compliant. Can be upgraded to Diamond Grade.

Ultra-Bright LEDs

Sign Alert's ultra bright LEDs are one of the brightest in the industry and are completely weather proof. The LEDs will adjust brightness according to available light in order to conserve energy and battery life and maximize brightness. Adjust the flash rate from 50/50 to 90/10 duty cycle.

With SPLasher technology, LED Sign Inserts can be activated using optional motion technology to only activate when cars are approaching and can be set to go off after your desired preset threshold.

- All controls hidden behind solar panel
- Off the shelf battery
- Smart controller
- Light weight design
- Multi-stage battery charger
- Maximum power point tracking
- Adjustable duty cycle

Back View

The back of the sign is a smooth sheet of aluminum, routed out on the inside to completely enclose and protect all wires.

*Shown on Round aluminum pole.

Compact Battery Cabinet

Compact Battery Cabinet houses the SPLasher and the off-the-shelf battery under the solar panel.
