

## Sign Alert™

## Wrong Way Sign

K&K Systems' Sign Alert™ Wrong Way Signs are designed for four lane highways, interstates, one way streets, and off-ramps to prevent drivers from entering into one-way oncoming traffic that could result in dangerous head on collisions. Whether in congested cities, or on rural and remote roadways, K&K Systems' Sign Alert Wrong Way Signs are used to enhance the visibility of one way lanes on the interstate, highway or rural roads. Sign Alert Systems are visible in all weather conditions with our ultra-bright LEDs.

Sign Alert Wrong Way Signs operate 24 hours /7 days a week at top performance with our auto dimming and multi-stage battery charger features built into our smart controller. Our Sign Alert Systems have the capability to also be activated by our optional radar detector to flash only when vehicular traffic is approaching the sign from the wrong direction..

### FEATURES

- Simple installation
- Solar powered
- Visible day and night
- Super bright LEDs
- Automatic light output for maximum efficiency
- Compact battery box
- Ultra slim design

Upgrade K&K Sign Alert Wrong Way Sign from four ultra bright LEDs to eight ultra-bright LEDs for an even more illuminate sign that is sure to warn drivers of one way traffic.

\*Shown on optional round aluminum pole.

# Sign Alert™

## Wrong Way Sign

### Solar Powered

With solar technology, this system can virtually be placed anywhere off the grid. With the "off the shelf" battery and smart controller housed behind the solar panel, installation is a snap.

### Reflective Sign

High intensity signage and MUTCD compliant. Can be upgraded to Diamond Grade.

### Ultra-Bright LEDs

Our ultra bright LEDs are one of the brightest in the industry and are completely weather proof. The LEDs will adjust brightness according to available light in order to conserve energy and battery life and maximize brightness.

- All controls hidden behind solar panel
- Off the shelf battery
- Smart controller
- Maximum power point tracking
- Light weight design
- Multi-stage battery charger

\*Shown on Round aluminum pole.

**Compact Battery Cabinet**

**Radar Detector:** to activate the Sign Alert's LEDs only when traffic is approaching the sign from the wrong direction.

**Diamond Grade Sheeting:** for optimal reflectivity.

**Additional LEDs:** to increase sign's brightness and effectiveness, increase the number of LEDs from four to eight.

**Optional Upgrades**
